1. INTRODUCTION

STATISTICS

This document reports the details of 509 individuals, of which 262 are male and 247 are female. Of the 131 individuals with recorded birth and death dates, the average lifespan was 57.8 years. Of these, 73 males averaged 56.2 years, and 58 females averaged 59.8 years.

Within the Direct Relations section, the longest living male was [Joseph CRUMPTON](#), who died aged 87, and the longest living female was [Edith Mary STAFFORD](#), who died aged 88. Among the indirect relations, the longest living male was [Frank Gilbert BENSON](#), who died aged 83, and the longest living female was [Barbara LANE](#), who died aged 83. Among the unconnected individuals, the longest living male was [Frederick LITTLETON](#), who died aged 53, and the longest living female was [Elizabeth PARKES](#), who died aged 90.

There are 115 families reported. 101 of these families are reported as having children, with an average of 3.8 children per family.

THE NARRATIVE SECTIONS

The "Direct Relations" section reports the details of individuals who have a direct family connection to [Steven HARBUTT](#). The section is broken into sub-sections for each generation, within which the individuals are listed in order of closeness of relationship. The sequence numbers are used throughout the document to cross-reference back to the detailed entry of an individual.

An "Indirect Relations" section reports the details of individuals who do not have a direct family connection to [Steven HARBUTT](#), but do have direct family connections to an individual who is reported within the "Direct Relations" section, or within another section of indirect relations.

Unconnected individuals are individuals who do not have a direct family connection to [Steven HARBUTT](#), nor to any individual indirectly connected to [Steven HARBUTT](#).

With a narrative section, each generation is shown as a separate subsection, within which the individuals are listed in order of the closeness of their relationship to [Steven HARBUTT](#).

COUSIN RELATIONSHIPS

Cousin relationships are determined by distance (first, second, third, etc.), and times removed.

Distance is determined as one less than the lower number of the previous generations traversed back from each of the individuals until the first common ancestor is found. Thus, if two people of the same generation have a common great-grandparent (three generations back), they are second cousins.

Removal is determined by the number of generations which separate the two people. For example, consider your first cousin's children. Because your common ancestor with them is your grandfather (two generations back) and their great-grandfather (three generations back), you are first cousins, once removed.

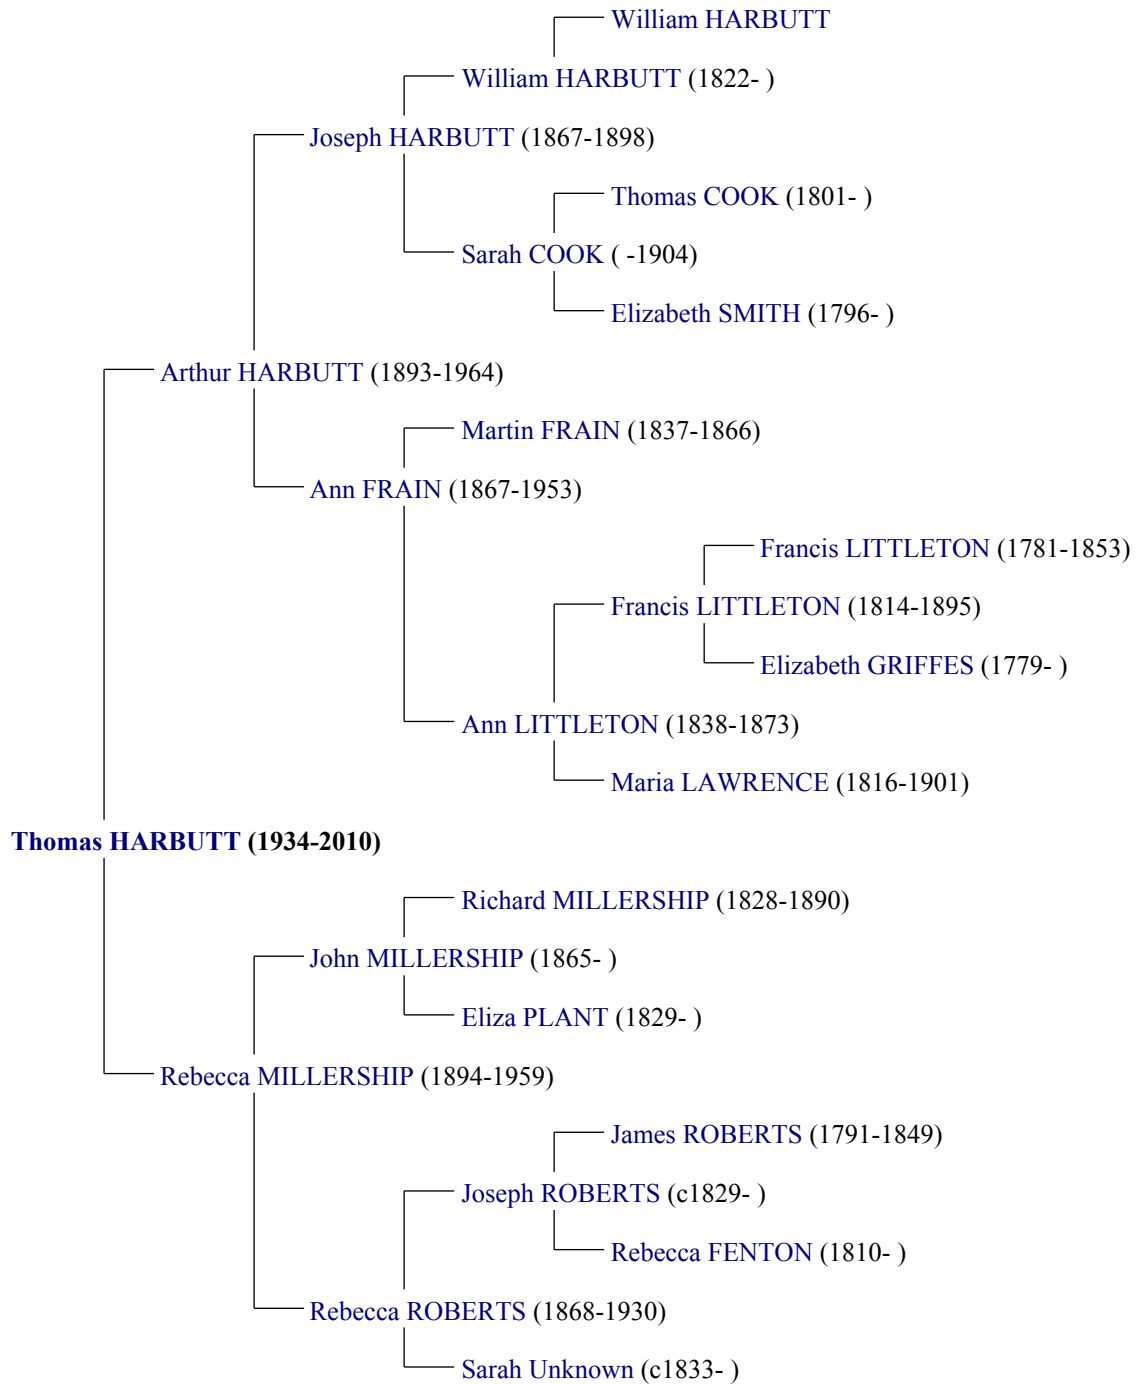

FAMILY TREES SECTION

Each family tree shows the reported children, parents, grandparents and great-grandparents of a family group. In order to reduce redundancy, any family group which is wholly included within another family tree may not be reported separately.

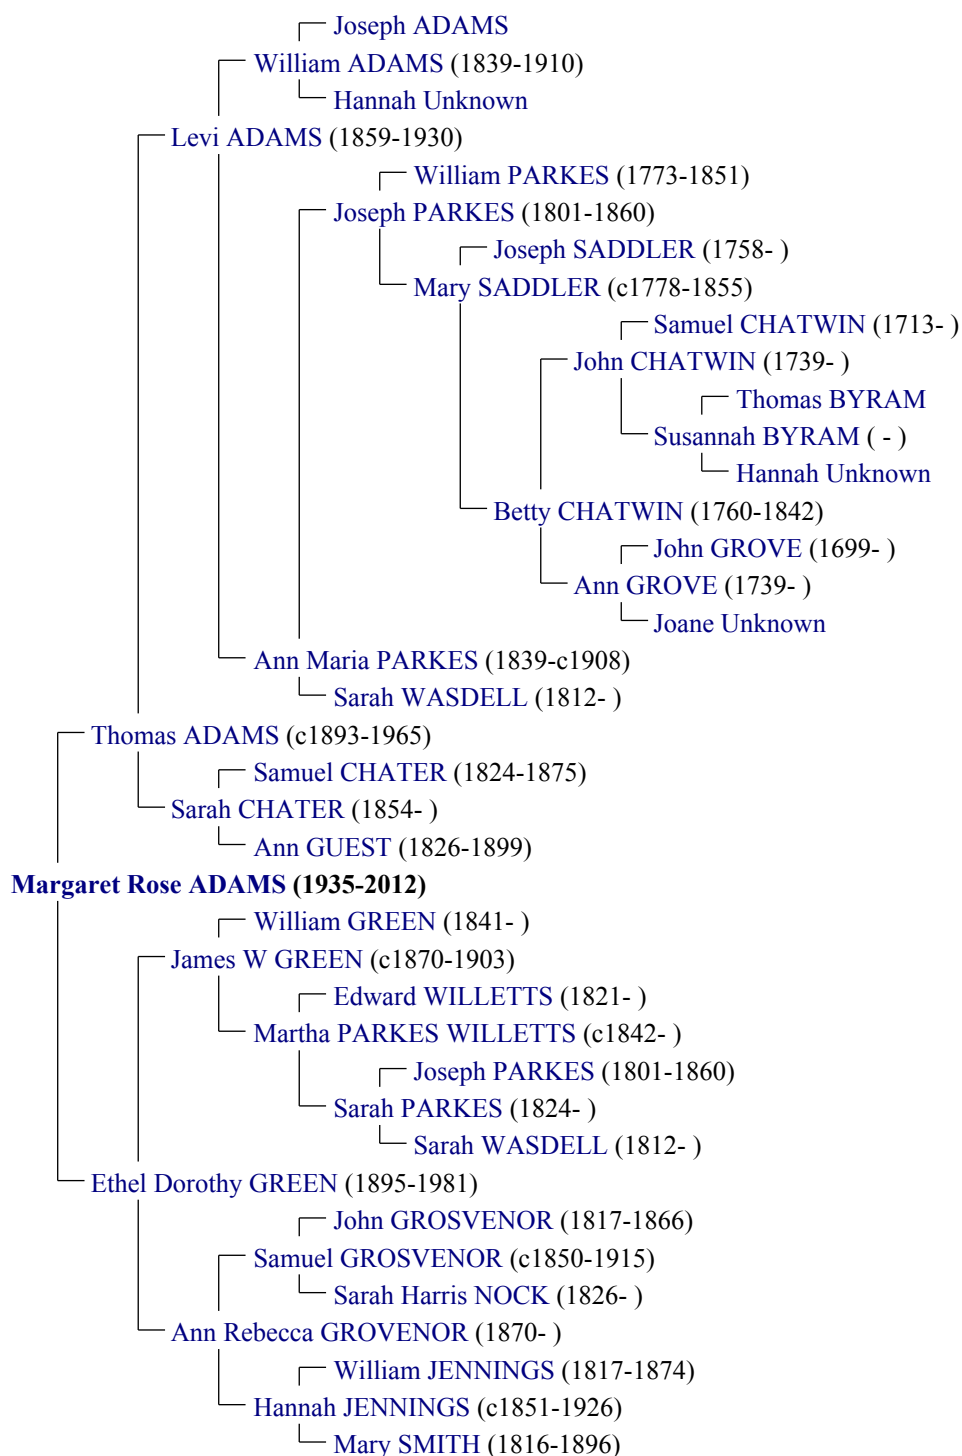

Above each of the great-grandparent boxes (top row), a continuation family tree reference number is shown if the great-grandparent is recorded as a child in the continuation tree. A continuation reference number is also shown to the left of a grandparent or parent box if that individual has siblings reported in the continuation tree; and beneath a child box (bottom row) if that individual has children reported in the continuation tree.

In cases of multiple marriages, a continuation reference number preceded by "=" is shown to the right of a parent box. This number references the previous and/or next tree in which that individual is shown with another partner.

NOTICE TO INFORMANT

I hereby give notice that I have this day signed a medical certificate of the cause of death

of Baby David
Harbutt

Signature S.H. Harbutt

Date 13-2-58

This notice must be given by the Certifying Medical Practitioner to the person who is qualified and liable to act as informant for the purpose of the registration of the death. As to the person liable to act as informant, see back.

DUTIES OF INFORMANT

This notice is to be delivered by the informant to the registrar of births and deaths for the sub-district in which the death occurred. The death cannot be registered until the medical certificate has reached the registrar. Failure to deliver this notice to the registrar renders the informant liable to prosecution.

The informant must be prepared to state accurately to the registrar the following particulars :—

(1) The date and place of death, and the place of deceased's usual residence (2) the full names and surname (3) the correct age (4) the occupation (5) whether deceased was in receipt of a pension or allowance from public funds and (6), if deceased was a woman who had been married, the date and duration of marriage.

**DECEASED'S MEDICAL CARD MUST
BE DELIVERED TO THE REGISTRAR.**
